When you take a course of driving lessons, your training is individually structured to meet your own personal needs and requirements. [Read more](#) about this and what to expect on our [Blog Post](#).

Should I get extra practise with my parents or partner?

Learners who get extra private practice tend to pass quicker and more likely to pass first time as they get more regular sessions and a chance to practise their targets. These sessions don't have to be full on and could just be driving to the supermarket and practising parking.
